Nickel nitrate

EINECS No. 236-068-5 CAS No. 13138-45-9

The purpose of the **Pre-SIEF** is for REACH Pre-Registrants to agree on **sameness** of substance.

Pre-Registrants that can agree that they have the same substance will then pass into the Substance Information Exchange Forum (SIEF) for this substance, where the data-sharing dialogue begins.

Pre-Registrants that consider they do not have the same substance will be grouped together by the Pre-SIEF Facilitator for further discussion and potential entry into sub-SIEFs or another SIEF.

Please check that your pre-registered substance matches with the following description:

CAS No.:	13138-45-9	14216-75-2
EINECS No.:	236-068-5	238-076-4
EINECS Name:	nickel dinitrate	nitric acid, nickel salt
Synonyms:	nickel (2+) nitrate; nickel bis(nitrate); nickel (II) nitrate; nickel bisnitrate; nickel nitrate; nickelous nitrate	
Molecular formula:	Ni(NO ₃) ₂	
Structural formula:		
Molecular weight:	182.71	

There are two entries for nickel nitrate in EINECS. Only one of these (236-068-5) is included in the fourth list of priority substances (EC, 2000b) under Council Regulation (EEC) 793/93 (EEC, 1993) and in the Nickel REACH consortium 1.

The second substance (238-076-4) is also a nickel(II) salt of nitric acid. This second substance is not included in the TSCA Inventory. **The risk assessment is also considered to apply to this substance which can be covered by Nickel REACH consortium**

You will shortly receive an E-mail for you to take part in the '**Substance Sameness Survey**'. Your response to that survey will be your participation in the Pre-SIEF 'sameness' discussion.
